Dear Glenn,

I just received the spectacular aerial shots of the house. I can truly appreciate the workmanship that went into the job after viewing the house from the sky. I can't imagine how the crew was able to scale some of the pitches and no less attach the metal sheets, screws and ridge caps. I walked the outside of the house last week and was very impressed by the quality of your work. I always judge a job by the detail work and finishing that goes into it. In both cases I give your company high grades. Please send my sincere appreciation to Dave, Bob and the workman who made this all possible. We will always be proud of the copper metal roof that crowns our wonderful Sanibel home. I look forward to receiving a copy of your brochure featuring our house when it is published. Please feel free to give our name to any future client as a reference. We will be glad to pass on our positive experience to them.

Best Regards,

Joel Kronfeld
